Typing Top Tips!

Make allocated times in your week where you can practise your typing – before you start your homework is best and easy to remember.

As little as 15 minutes per day can make a huge difference.

Make it fun – put some classical music on while you type!

Put a reminder on your phone / iPad / calendar.

The more you practise the more accurate and faster you will type!

Remember to cover your keyboard with a specialist sleeve / tea towel / piece of material to help you memorise the keys!
